# SCORM Reports
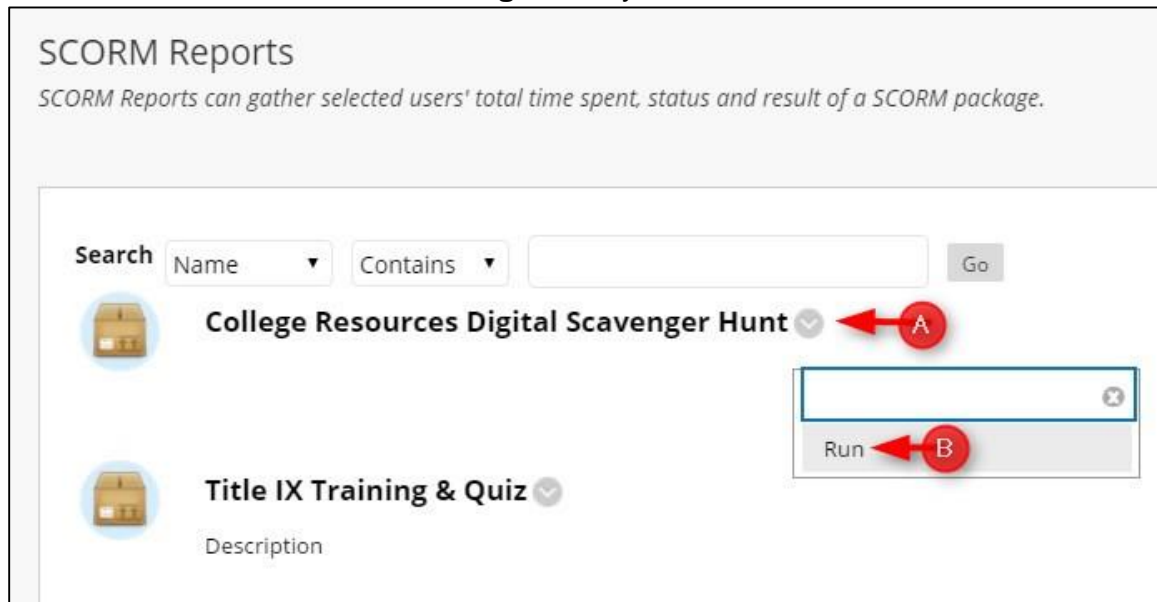

If you have a SCORM package such as Articulate, SoftChalk or other software packages, you can view the student's submission.

Directions to run a SCORM report:

1. On the Course page click Evaluation and then SCORM Reports.

2. Click the **down arrow for the assignment** you want to review and then click **Run**.

3. In the *Items to Select*, **click the student**, then **click the right arrow**. The student will appear in the Select Users field. Click **Submit** to run the report.

4. The report is very detailed. **NOTE:** If the Status is incomplete, tell the student to resume the assignment, continue until the last slide, and let the audio run until the end.

Grade: 9 out of 10
