

Using Lockdown Browser

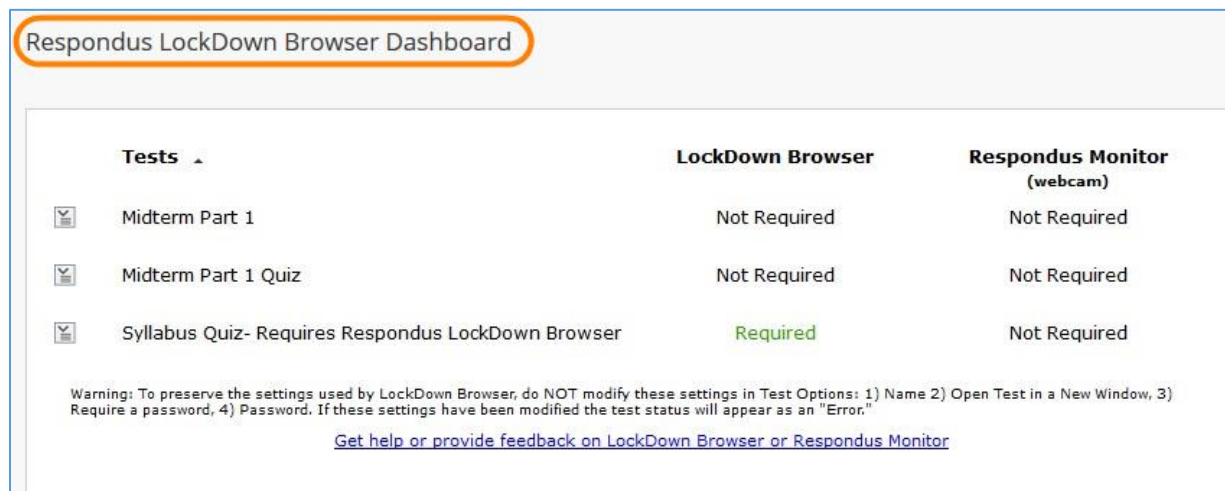

Stark State College is now using Respondus LockDown Browser for secure testing. Respondus Lockdown Browser offers the same benefits as ANGEL Secure Browser, with an added feature or two.

Directions:

1. The test needs to exist in Blackboard. For instructions on creating a test, review our [Add a Test](#) article.
2. Navigate to **Course Tools** and find Respondus Lockdown Browser in the list. Click the link.

3. The list of tests available in the course will appear in the **Respondus LockDown Browser Dashboard**.

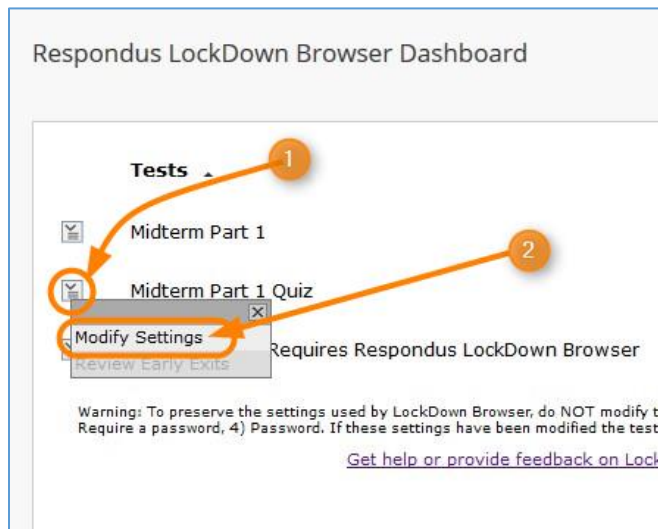

A screenshot of the Respondus LockDown Browser Dashboard. The title 'Respondus LockDown Browser Dashboard' is at the top, circled in orange. Below the title is a table with three columns: 'Tests', 'LockDown Browser', and 'Respondus Monitor (webcam)'. The table lists three tests: 'Midterm Part 1', 'Midterm Part 1 Quiz', and 'Syllabus Quiz- Requires Respondus LockDown Browser'. The 'Syllabus Quiz' row has 'Required' in green text under the 'LockDown Browser' column. Below the table is a warning message and a link for help or feedback.

Tests	LockDown Browser	Respondus Monitor (webcam)
<input type="checkbox"/> Midterm Part 1	Not Required	Not Required
<input type="checkbox"/> Midterm Part 1 Quiz	Not Required	Not Required
<input type="checkbox"/> Syllabus Quiz- Requires Respondus LockDown Browser	Required	Not Required

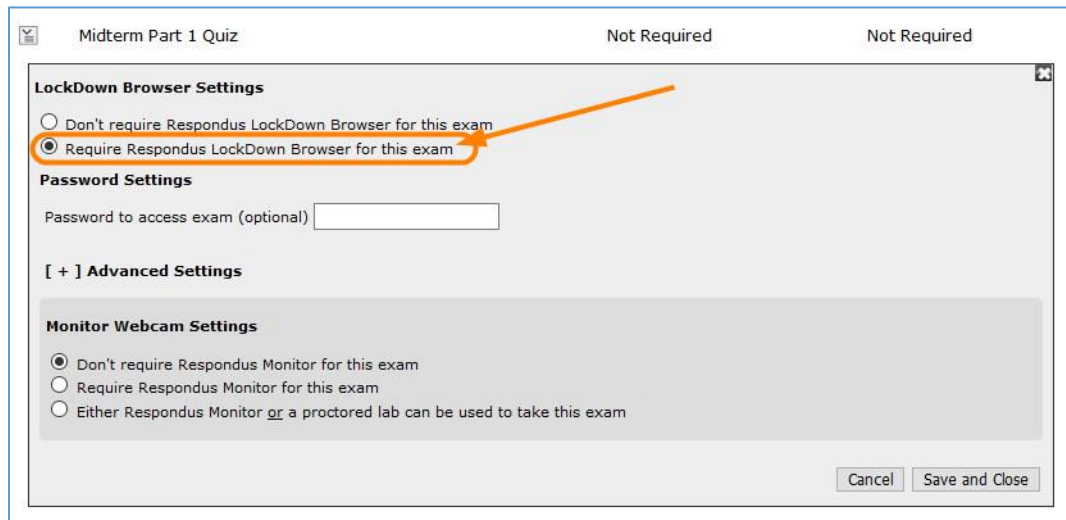

Warning: To preserve the settings used by LockDown Browser, do NOT modify these settings in Test Options: 1) Name 2) Open Test in a New Window, 3) Require a password, 4) Password. If these settings have been modified the test status will appear as an "Error."

[Get help or provide feedback on LockDown Browser or Respondus Monitor](#)

4. Click the **dropdown arrow (1)** then, click the **Modify Settings link (2)** in the dropdown.

5. Change the **Lockdown Browser Settings to Require Respondus LockDown Browser for this exam.**

6. There are several **Advanced Settings** to choose.

1 Prevents student from exiting LockDown Browser before an exam is submitted for grading. Optionally a password can be entered to enable a proctor to close the browser during an exam. **This setting is for proctored testing only.**

2 Allows students to test using the iPad. The students will need to download the app from the iTunes store. **This is not a proctored test and is not recommended as a valid testing choice.**

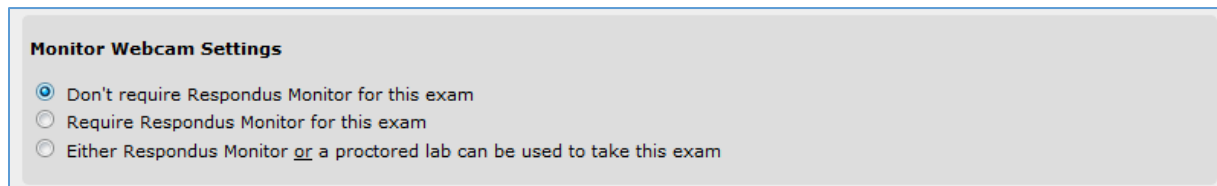

3 Allows access to a specific Web site during the test.

4 Enables the calculator to be available.

5 A print icon is placed on the toolbar so that tests can be printed. It's unlikely that this option would be used.

7. The Monitor option is to allow students to complete the test anywhere they choose.

Respondus Monitor will be added during the Fall 2017 semester. It requires the use of a Webcam during the test to monitor the test-taker for cheating. For now, choose, **Don't require Respondus Monitor for this exam.**

8. Once all the sections have been reviewed and changed, **Save and Close** this window.

LockDown Browser Settings

Don't require Respondus LockDown Browser for this exam
 Require Respondus LockDown Browser for this exam

Password Settings

Password to access exam (optional)

 Enable Calculator on the toolbar [\[explain\]](#)
 Enable Printing from the toolbar [\[explain\]](#)

Monitor Webcam Settings

Don't require Respondus Monitor for this exam
 Require Respondus Monitor for this exam
 Either Respondus Monitor or a proctored lab can be used to take this exam

Cancel **Save and Close**

9. This changes the Test in the dashboard to "Required" under the LockDown Browser column.

Respondus LockDown Browser Dashboard

Tests	LockDown Browser	Respondus Monitor (webcam)
<input checked="" type="checkbox"/> Syllabus Quiz- Requires Respondus LockDown Browser	Required	Not Required
<input checked="" type="checkbox"/> Midterm Part 1	Not Required	Not Required
<input checked="" type="checkbox"/> Midterm Part 1 Quiz	Not Required	Not Required

10. The test now requires the students to use Respondus LockDown Browser to complete the test.
